Tom:

Thank you for sharing this excellent news.

Regarding the question below, I cannot find the specific actions right now. It was a product that had been cleared for launch and then EPA said it had not been cleared – after company had pre-orders and delivery schedules in place. The timing was October-November 2017. I don't think it was the roundup Ready Xtend ...but am not sure.

Sorry I am preparing for another meeting right now and do not have the resources to pull this up quickly.

Look forward to meeting you Monday.

Mr. Brennan,

This is great news! We're thrilled to have Administrator Pruitt available to our group!

I have copied Heather Hampton-Knodle to this email so that she can clarify the pesticide question. Thank you so much for the effort your group is putting in to preparing for the meeting.

Kristi

Hi Kristi,

We are looking forward to Monday. It looks like the Administrator will be joining in, so that is exciting!

The office of Pesticide Programs asked if you could give us a little more detail about your seed related question so they can be fully prepared.

- Pesticide registrations and reviews (i.e. atrazine, glyphosate, and the seed-related product equality or something – that got pulled seemingly arbitrarily in the fall after it had been given the all clear by EPA earlier)

Thanks!

Tom Brennan
